Delivery Managers – 07 4772 0402

PROJECT TEAM

Project Manager: Shane Meteyard/ Peter Bell
Site Supervisor: Rodney Bucklar/ Trevor Stevenson

Project Overview

Milray Contracting were awarded four NDRRA packages with a value of \$7.5M from Charters Towers Regional Council as part of the Natural Disaster Relief and Recovery Arrangements (NDRRA). These are a joint funding initiative of the Commonwealth and State Governments to provide disaster relief and recovery payments and infrastructure restoration to help communities recover from the effects of natural disasters.

The works were undertaken on various locations within Charters Towers region with a wide scope of works including grading, gravelling, minor earthworks, insitu stabilisation and rock protection.

A high level of relationship management was established due to high quality of workmanship, correspondence and time management.

These packages were completed under budget and ahead of practical completion.

PROJECT SYNOPSIS

- 36.8km of Surface Formation Grading
- 19.8km of Heaving Formation Grading
- 257,700t of Gravel Resheeting
- 771m³ of Rock Protection
